SOURCE

On 12 September 1951, reconstruction work was being done on the hangars and buildings at Burg airfield by the construction firm of Ketzal in Burg (F-2). The debris of the old runway was being shipped in the direction of Altengraben from the Polzahn railroad station, east of Burg, on the branch of railroad line. According to a construction foreman, the landing field of the installation was also being reconditioned. *

25X1X

- * Comment. Reconstruction work at the Burg airfield is confirmed. According to available information, only the buildings at the field will be rehabilitated. The correctness of the information on the reconditioning of the unserviceable landing field is doubted. The airfield quarters are occupied by Volkspolizei.
